

For flat-head printers

The SS1 is a general purpose pure resin ribbon developed in response to the most demanding requirements of the pharmaceutical, chemical and automotive industries. The ink formula offers very good levels of mechanical and solvent resistance and performs well on a wide range of synthetic materials, producing sharp and clear printed images and bar codes.

Toshiba SS1 ribbons – An ideal choice for outdoor applications as it will withstand the harshest extremes of weather conditions.

Available for

B-442	B-452	B-SV4T	
B-443	B-852	B-SA4	

Characteristics

- Prints at low temperatures
- High durability with super solvent resistance
- UL recognized
- Heat resistance of up to 170°C

Specifications

Ink	Type	Resin
Carrier	Total thickness	8.7 ± 0.8 µm
	Base film thickness	4.5 ± 0.4 µm
	Ink thickness	1.4 ± 0.4 µm
Printed properties	Transmission Density	Min. 1.15*
	Print Density	Min. 1.6
Durability	Label stock	Topcoated white polyester
	Print speed	8 IPS (print density 2.40)
	Smudge resistance (100 cycles @ 800 grms with cotton cloth)	ANSI A ¹
	Scratch resistance (100 cycles @ 380 grms with 3mm steel ball)	ANSI A ¹
	Colours	● Black

ANSI = American National Standard Institute

A = Excellent, B = Above average, C = Average, D = Below average, E & F = Poor

*Please note that not using TOSHIBA approved ribbons affects any printer and printhead warranties offered by TOSHIBA Europe. Always choose Toshiba ribbons for Toshiba printers

The wide range of Toshiba ribbons available today ensures that our valued customers have different product options for virtually every thermal transfer application. Using Toshiba ribbons ensures optimum print quality causing minimum wear on working parts - in particular to the printhead.

Before a ribbon is certified by Toshiba it must first undergo stringent tests to ensure its continuity and reliability in the field. It is assessed on a variety of receiving materials, and at every speed and temperature combination. Only once this procedure is complete and deemed successful will the ribbon receive its certificate of approval.

This commitment to quality and reliability is what you would expect from Toshiba as the biggest thermal transfer ribbon distributor in Europe.

Other approved ribbon types available

Standard applications	<ul style="list-style-type: none"> ● Wax ● Wax resin 	<ul style="list-style-type: none"> ● Super wax resin ● Full resin
Specialist resins for	<ul style="list-style-type: none"> ● Wash-care & textile labelling ● Harsh chemical and industrial uses 	<ul style="list-style-type: none"> ● Extreme automotive and aviation environments

Colour ribbons are also available in all qualities including HazChem orange.
